

Manufacturing Defect Analysis Dashboard

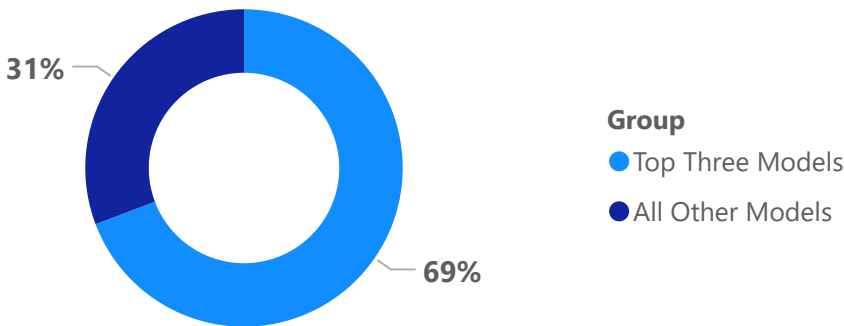

Defect Frequency by Production Model

Fishbone Diagram: Causes of Excessive Manufacturing Defects

Top Three Models Accounted for 69% of Defects

ANOVA Results

$F = 0.579$ | $\alpha = 0.05$

p-value: 0.565

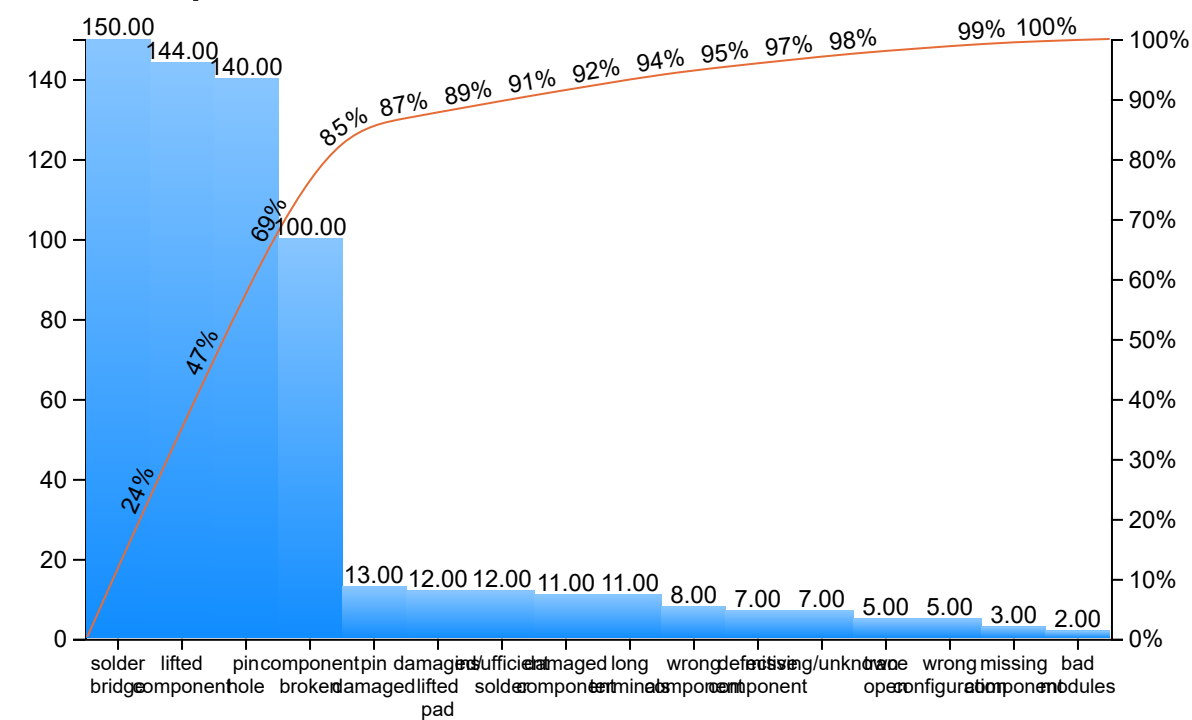

Fail to reject the H_0

No significant difference in mean defect frequency.

Most Frequent Defects In Top Three Models

Defect Frequencies for Production Model 595130

Defect Frequencies for Production Model 595214
