

Manufacturing Defect Analysis Dashboard

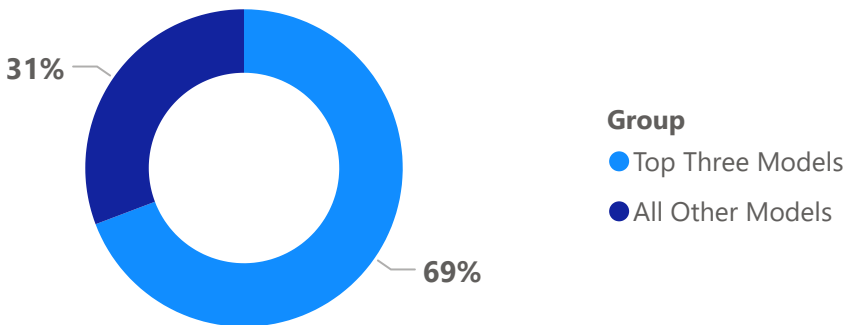

Defect Frequency by Production Model

Fishbone Diagram: Causes of Excessive Manufacturing Defects

Top Three Models Accounted for 69% of Defects

ANOVA Results

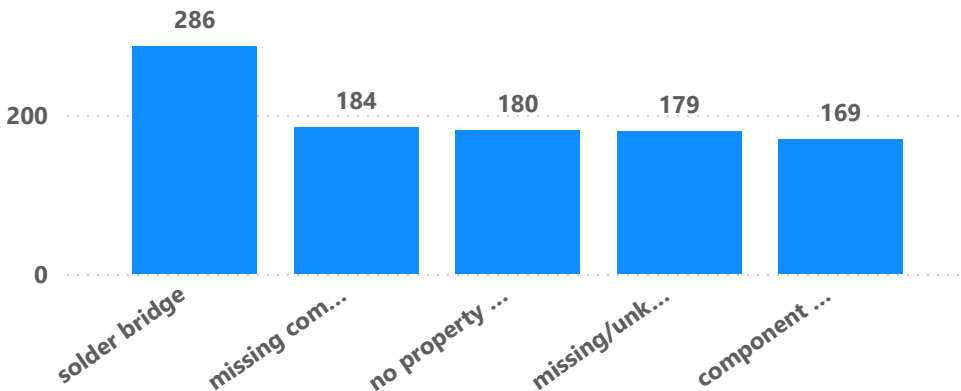

$F = 0.579$ | $\alpha = 0.05$

p-value: 0.565

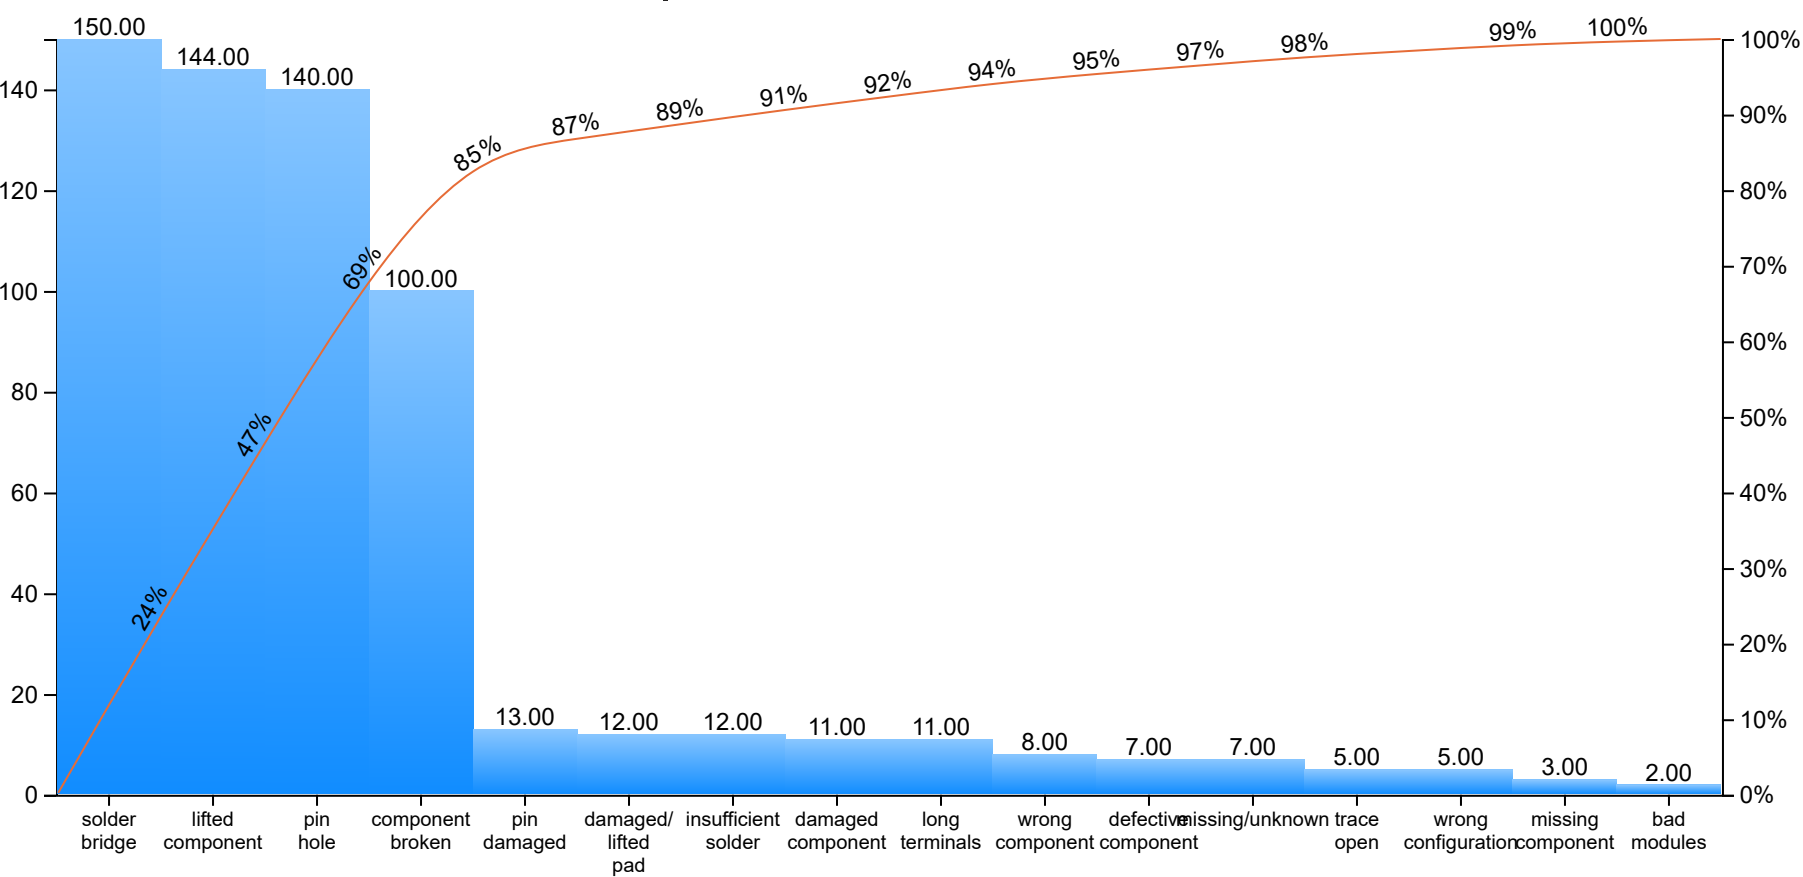

Fail to reject the H_0

No significant difference in mean defect frequency.

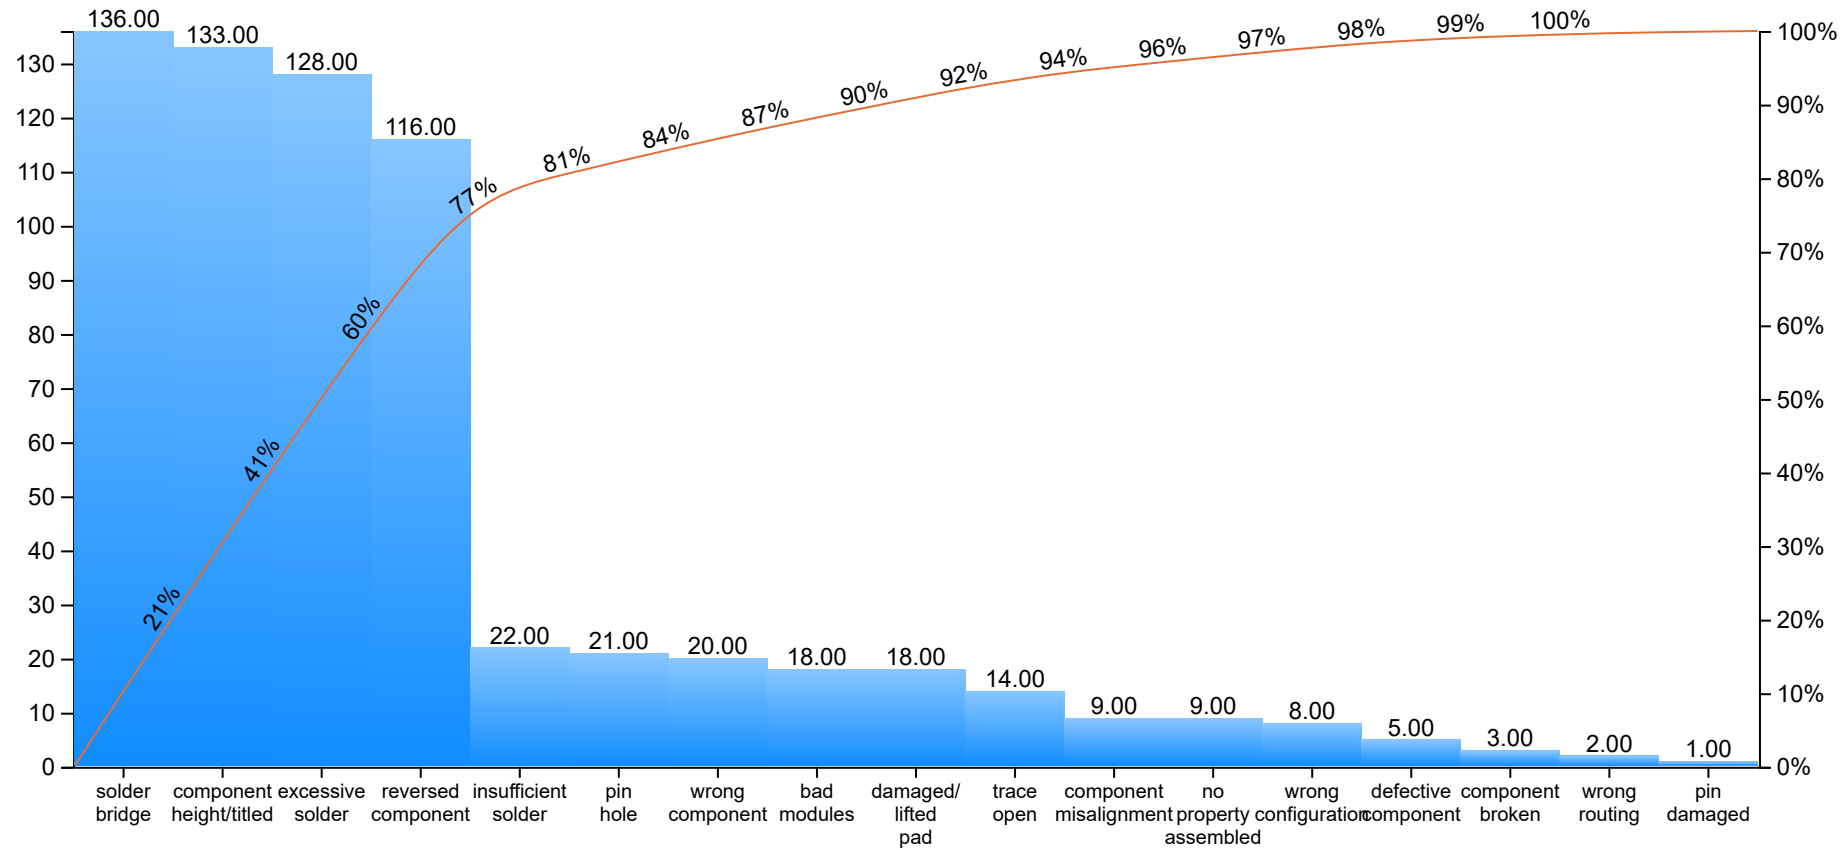

Most Frequent Defects In Top Three Models

Defect Frequencies for Production Model 595130

Defect Frequencies for Model 595214

Defect Frequencies for Production Model 595242
